

Serverless Portfolio with React JS

Robin Norwood

A CLOUD GURU

A person wearing a light blue button-down shirt is seated at a desk. They are holding a pen in their right hand and looking down at a stack of papers. A laptop is open to their right. The scene is dimly lit, with the primary light source coming from the laptop screen, which is visible on the right side of the frame. The overall tone is professional and focused.

Section Four

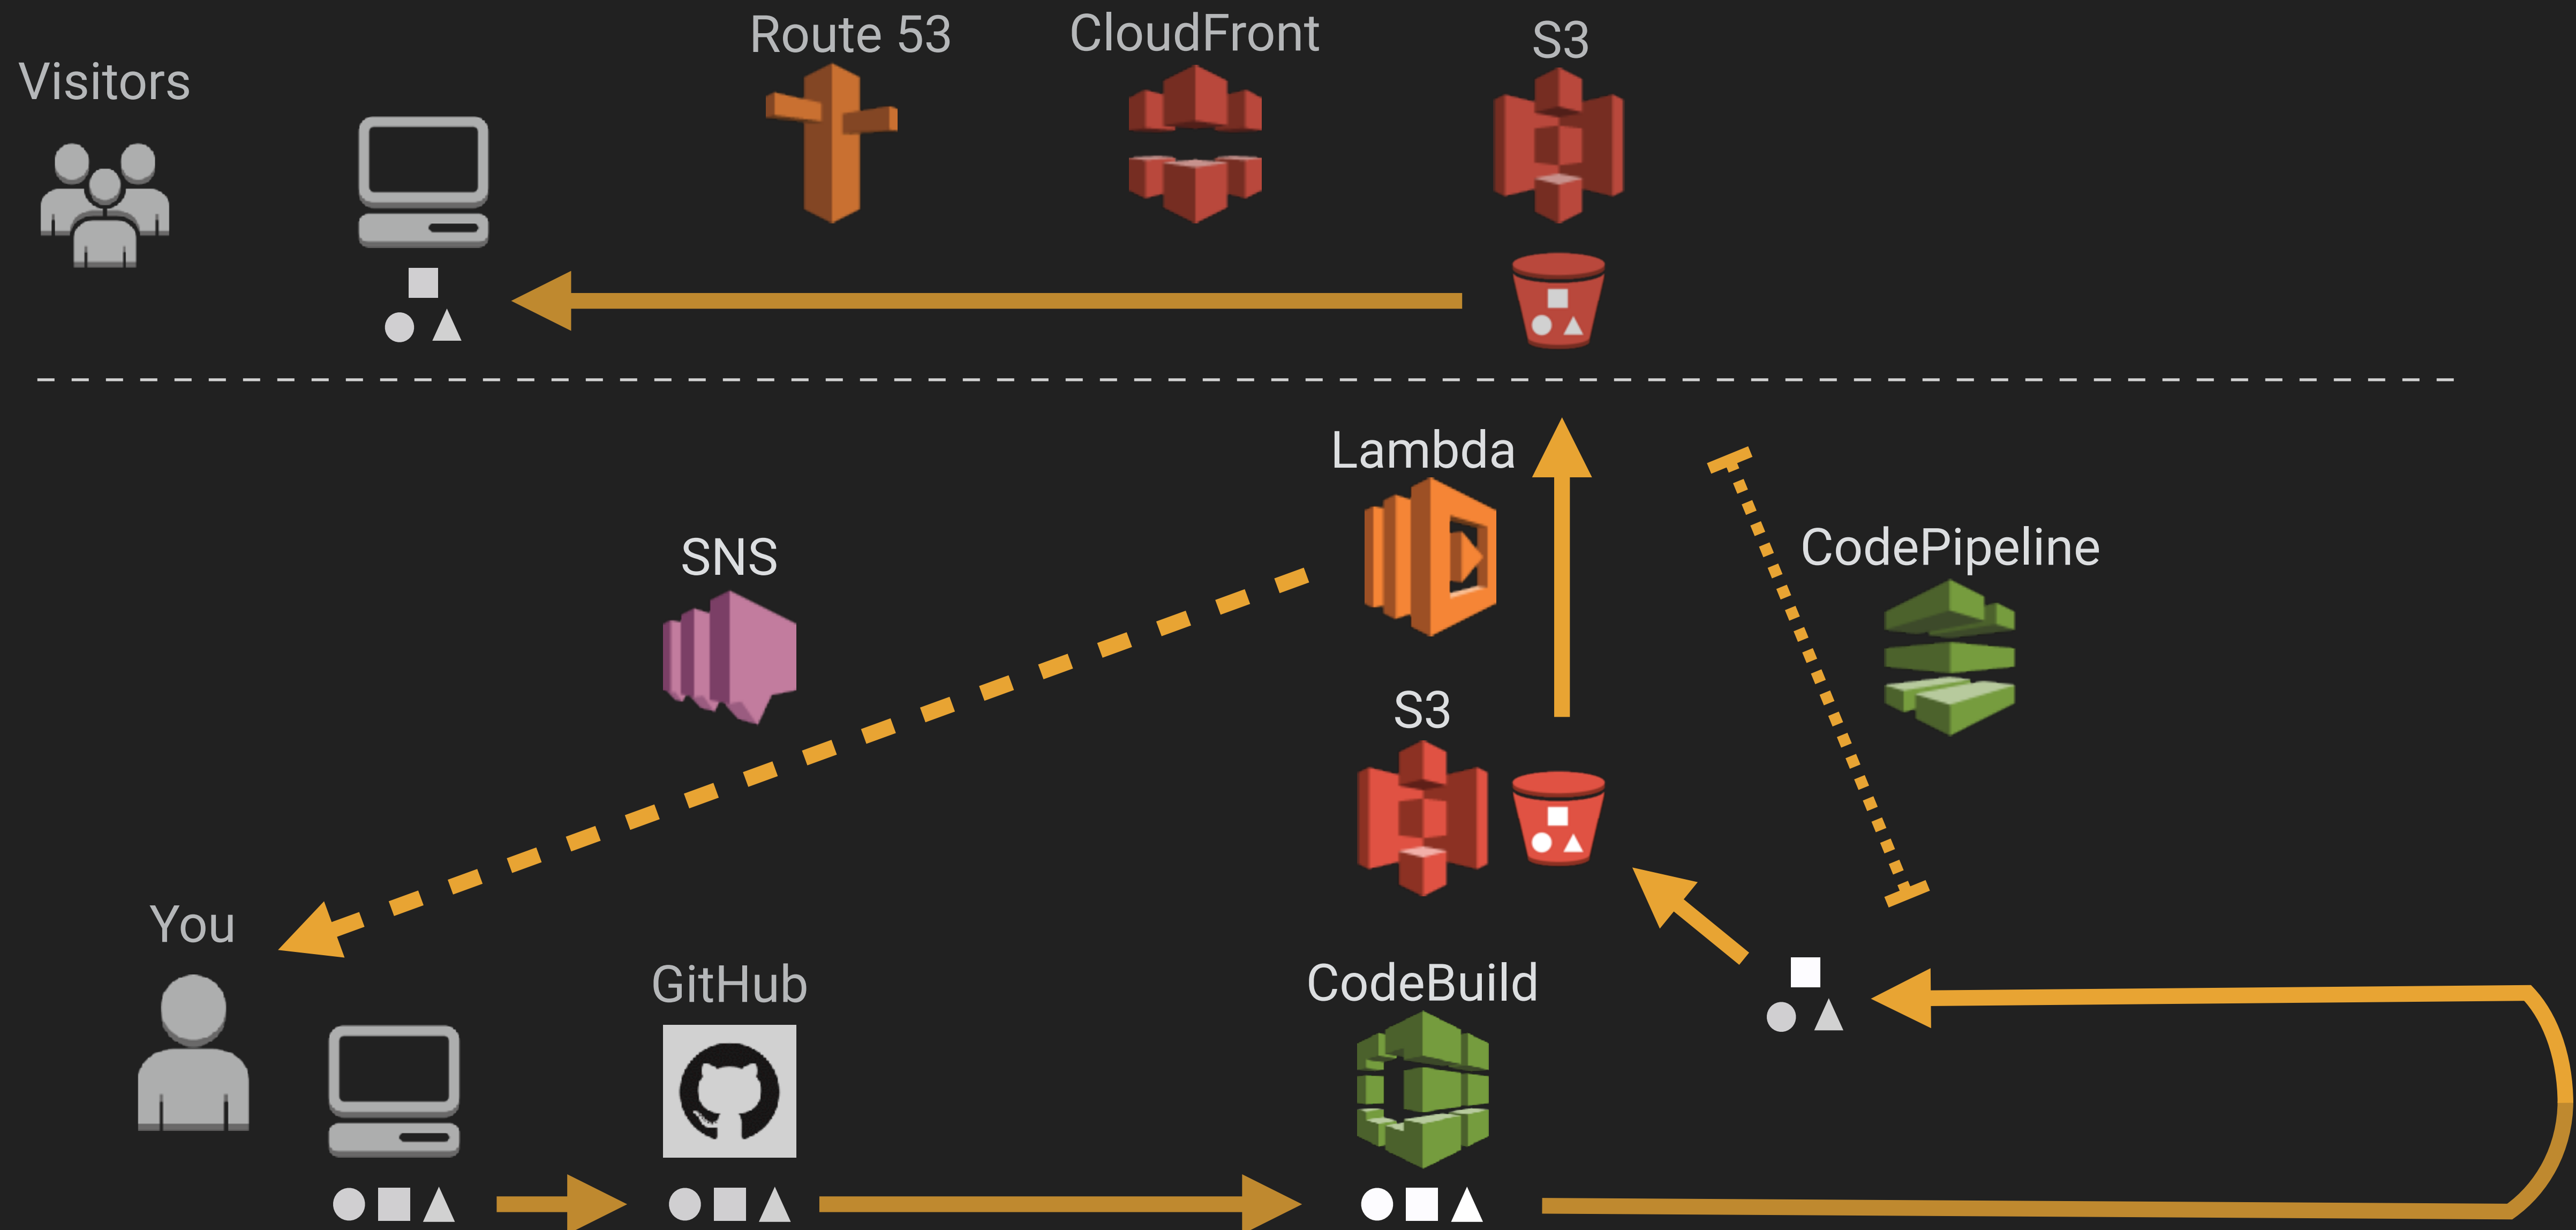

Section Four

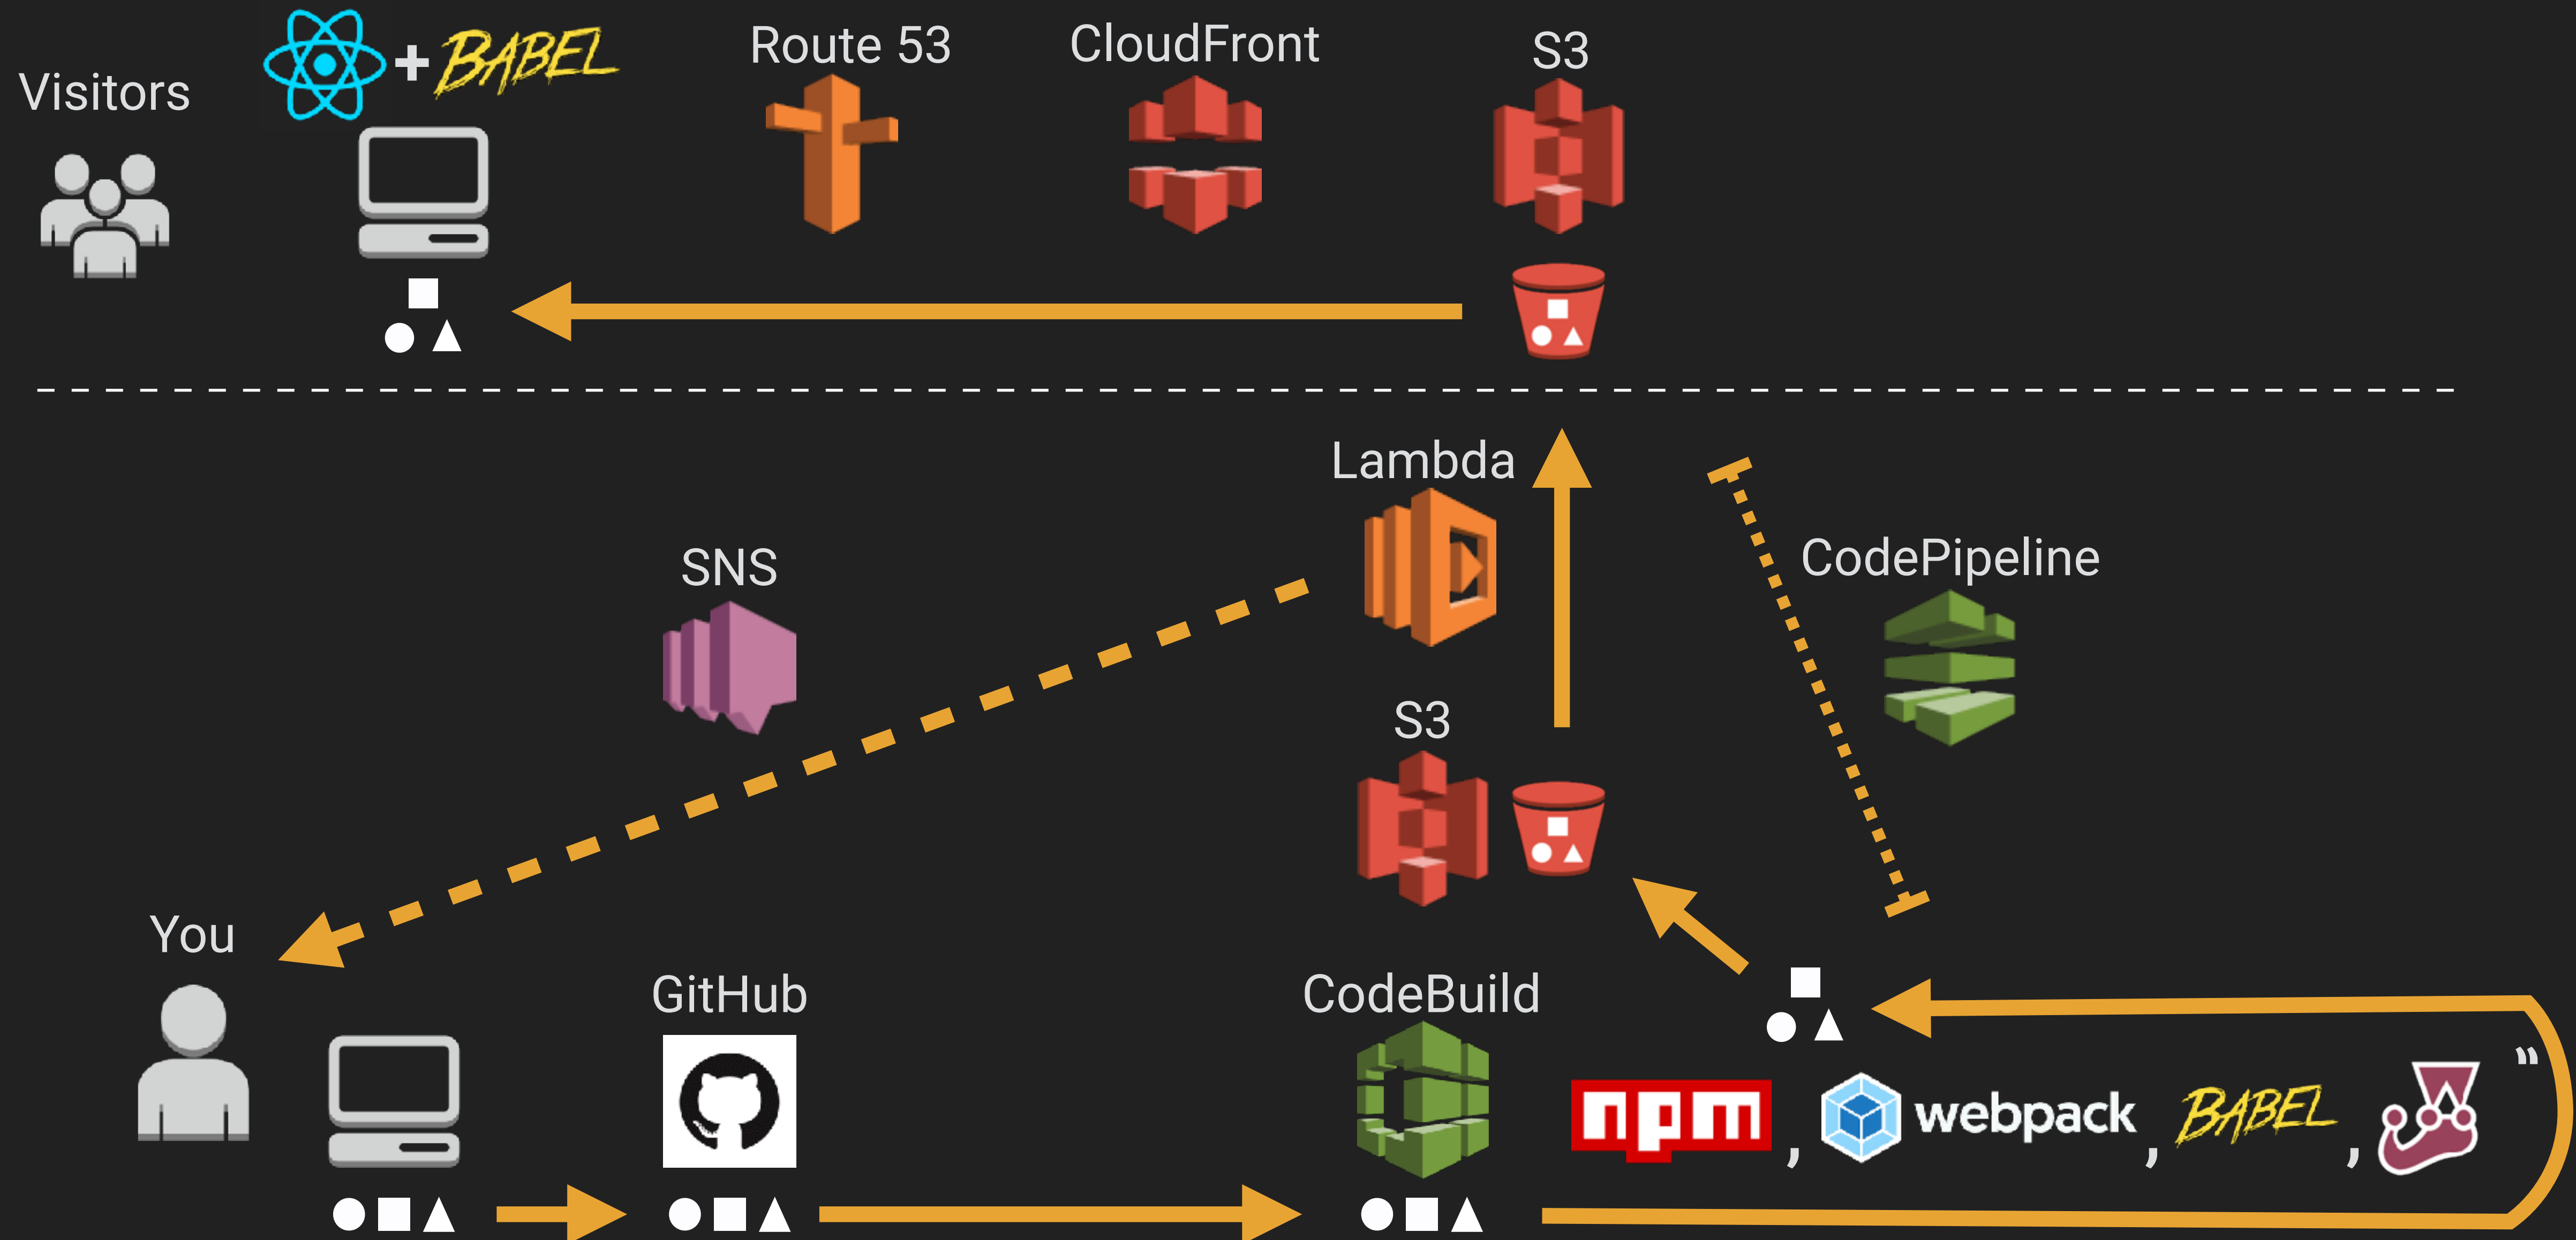

In this section, we'll...

- Configure CodePipeline, CodeBuild, and Lambda to automatically deploy your portfolio
- Use the Simple Notification Service (SNS) to notify you when that happens

Architecture: Section Four

Architecture

A person wearing a light blue button-down shirt is seated at a desk. They are holding a pen in their right hand and looking down at a stack of papers. A laptop is open to their right. The scene is dimly lit, and the text 'Let's Go!' is superimposed in the center in a large, white, bold font.

Let's Go!
